

Professional Wrist Camera

The Most Advanced, Discreet Camera Available!

- 15 To 36 Color Exposures
- Machined Metal Block
- Handmade
- Leather Wristband
- Anodized Housing
- Aluminum Magnesium Alloy

The Professional Wrist Camera represents the pinnacle of P3 International's standard of excellence. Entirely handmade by German craftsmen, this unit delivers quality photographs in a discreet manner. Weighing less than 2.5 oz., including film and wristband, this camera is no lightweight performer. Crafted from an aerospace-industry aluminum magnesium alloy, this camera is stronger than steel at only a fraction of the weight. Using 8 x 11 cartridge film, the same type used by the popular high performance Minox™ Cameras worldwide, this device's pictures are anything but ordinary. One touch exposure and simple film advance ensure hassle free photography in any situation.
