

Zoom into a new dimension

**EXILIM**  
www.exilim.co.uk

Extremely thin. Extremely fast.  
Extremely desirable. EXILIM digital cameras by CASIO.

Welcome to a new dimension of digital photography. Welcome to EXILIM! New technologies developed by CASIO are sure to grab you: the size, luxurious materials, and innovative functions open up a completely new world of digital photography. EXILIM digital cameras are so quick and easy to use that you can capture each and every exciting moment wherever it happens, whenever it happens. EXILIM - take it with you everywhere.

Discover the unique new digital cameras from CASIO. No bigger than a credit card, they attract attention wherever they go: distinctively designed and ready for action in less than 2 seconds, with an effective resolution of 2.0 or 3.2 megapixels allowing for prints up to A4 in size, plus loads of other functions. EXILIM is in a class of its own.

EXILIM

## The new supermodel: the EXILIM EX-Z3 with 3x optical zoom.

Experience the future of digital photography today. With the one and only EXILIM EX-Z3. Finished in silver aluminium, as small as a credit card - 87 x 57 x 22.9 mm (W x H x D excluding projections) and weighing only 126g (excluding battery and memory card). It's the ultimate item for anyone who wants to stand out in a crowd.

...3.2 mega  
pixels

Thinner, faster, closer than ever: the new EXILIM EX-Z3 with 3.2 megapixels and 3x optical zoom. Now it's as easy as child's play to take infinitely variable shots from wide angle to telephoto range. The high-quality Pentax\* lens has a focal length of  $f = 5.8\text{mm}$  to  $17.4\text{mm}$  (equivalent to 35 to 105 mm in 35 mm cameras) at F2.6 to F4.8. When light conditions are less favorable, the integrated flash with red-eye reduction function switches on automatically. The flash range extends up to 2.3 m. The new EXILIM EX-Z3 is a real masterpiece.

\*Pentax is a trademark of the Pentax Corporation.

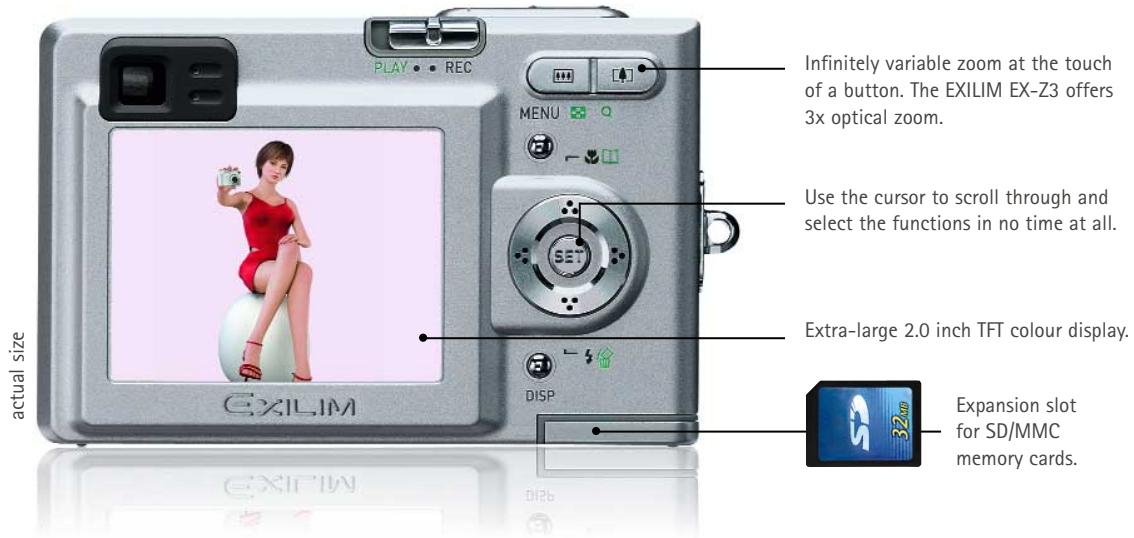

**EXILIM**  
ZOOM

It's show time.

With the extra-large 2.0 inch TFT LCD colour display

Small camera, extra-large display. Now you can admire all of your shots quickly and easily in brilliant, high-contrast quality on the extra-large 2.0 inch TFT LCD colour display. The Photo Stand feature lets you create your own individual slide shows at the touch of a button when the EXILIM is plugged into its USB docking station. EXILIM - always ahead of its time.

actual size

Infinitely variable zoom at the touch of a button. The EXILIM EX-Z3 offers 3x optical zoom.

Use the cursor to scroll through and select the functions in no time at all.

Extra-large 2.0 inch TFT colour display.

Expansion slot for SD/MMC memory cards.

ZOOM

# Opportunities abound.

The innovative functions of EXILIM.

With the USB docking station you can transfer pictures to your computer as you recharge the lithium-ion battery at the same time.

Decide between taking single shots or consecutive self-timer shots, or maybe you want to use the Pre Shot, Coupling Shot, BESTSHOT or the calendar feature, which catalogues all your shots and displays thumbnails in a month to view format. Record movies with sound for up to 30 seconds then copy all the photo data onto your computer quickly and easily - whatever you want to do, the new EXILIM EX-Z3 and EX-S3 digital cameras let you do it all.

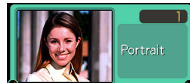

Coupling Shot

EXILIM EX-Z3 and EX-S3's Coupling Shot feature brings you together: you and your friend, that is. First take a shot of each of you separately. Then use the Coupling Shot function to put both shots together.

## *BESTSHOT*

Using CASIO's BESTSHOT function, great photos can be taken even by a novice. Just choose one of the preprogrammed scenarios and hit the shutter release. EXILIM makes all the optimum settings for you automatically.

Portrait

Enhanced flesh tones  
Setting zoom to telephoto  
blurs the background.

Scenery

Infinity focus  
Hard sharpness  
High saturation

Night Scene

Slow shutter speed  
Daylight white balance  
Keep the camera still!

Retro

Uses low contrast and  
the sepia color filter.

Twilight

Uses high color saturation and  
the magenta color filter.

# Sharpen your image.

The new EXILIM EX-S3 with 3.2 megapixels.

actual size

...3.2 mega  
pixels

A dream come true: the new, extremely thin EXILIM EX-S3 with 3.2 megapixels and extra-large 2.0 inch TFT LCD colour display that can be ready to shoot in around a second. A must-have for anyone who desires the finer things in life.

With its USB docking station with slide show function and innovative features such as Pre Shot, BESTSHOT, Coupling Shot, and the movie mode which lets you record movies with sound for up to 30 seconds, and much more the new EXILIM EX-S3 is one of the finest digital cameras around.

EXILIM

Pure entertainment.  
The EXILIM EX-M2 with MP3 player.

Enjoy your favourite tunes and take exciting shots at lightning speed with the same piece of equipment. Easy - if you've got the EXILIM EX-M2. This ultra-thin, ultra-quick digital camera with integrated MP3 player is a real entertainer that's always the centre of attention.

....2.0 mega  
pixels

KEYBYTE CYBD CYWERY  
EXILIM

The EXILIM EX-M2 has everything your heart could desire: photos in 2.0 megapixel quality, an MP3 player, a movie mode for up to 30 seconds of pictures with sound, voice recording for up to 50 minutes (stored internally). It's ready in approximately 1 second flat and offers loads of innovative photo functions.

EXILIM

# Just how big can small be?

## The EXILIM EX-S2.

It's the inner qualities that reveal true greatness. The EXILIM EX-S2 with 2.0 megapixels: super-thin, super-light, super-cool. Always ready to go (in approximately 1 second), easy to use, with BESTSHOT function and many other distinctive features that all add up to making the extremely small EX-S2 very, very big on the digital camera scene.

....2.0 mega  
pixels

The flash with red-eye reduction, integrated memory (which can be increased with SD/MMC memory cards), digital TFT LCD colour display, 4x digital zoom, movie mode for film recording in AVI format for up to 30 seconds, and much more make photography a real pleasure. The EXILIM EX-S2 - the small camera that makes you look really big.
